

Table of Contents

1.0	INTRODUCTION	1
1.1	The Engineering Analysis	1
1.2	Proposed Richmond - Hampton Roads High-Speed Rail Service	1
2.0	BACKGROUND	3
2.1	Prior Richmond to South Hampton Roads Rail Service	3
2.1.1	The N&W Service between Richmond and Norfolk	3
2.2	The Existing Services	5
2.2.1	Rail Passenger Service in Virginia	6
3.0	ASSESSMENT OF ALTERNATIVE RAIL CORRIDORS	8
3.1	Current Conditions: CSXT Main Line – Richmond to Newport News	8
3.2	Current Conditions: Richmond to South Hampton Roads	12
3.2.1	NS Main Line - Petersburg to Suffolk	12
3.2.2	Suffolk to Norfolk	15
3.3	Critical Locations: CSXT Peninsula Subdivision	21
3.3.1	Rivanna Junction (CA 84.5) to East End of Fulton Yard – Darbytown (CA 80.9)	21
3.3.2	Fulton Yard to Toppings (CA35.3)	24
3.3.3	The Peninsula Subdivision – Toppings to Hampton Roads	25
3.4	Critical Locations: Richmond to South Hampton Roads	26
3.4.1	The S Line from Main Street Station to Centralia	26
3.4.2	The S Line from Centralia to Colonial Heights	27
3.4.3	Centralia to Petersburg	27
3.4.4	Petersburg	27
3.4.5	NS Main Line between Petersburg and Suffolk	27
3.4.6	Suffolk to Norfolk Terminal	30
3.4.7	Bowers Hill Station	31
3.4.8	Access to Downtown Norfolk	31
3.4.9	South Hampton Roads Passenger Terminal	32
3.4.10	North Hampton Roads Passenger Terminal	32
3.5	Highway-Railroad Grade Crossings	32
4.0	PROJECTION OF FUTURE TRAFFIC AND CAPACITY REQUIREMENTS	36
4.1	Freight Traffic	36
4.1.1	South of the James River	36
4.1.2	North of the James River	37
5.0	RECOMMENDED IMPROVEMENTS	38
5.1	Identification of Improvements	38
5.2	NS and CSXT Fundamental Requirements to be Fulfilled Before New Passenger Service Begins	39
5.3	Recommended Improvements - Richmond to South Hampton Roads – The Southside/NS Corridor	40
5.3.1	The S Line from Main Street Station to Centralia	40
5.3.2	Centralia to Petersburg	40

5.3.3	Petersburg	40
5.3.4	NS Main Line between Petersburg and Suffolk	41
5.3.5	The Brico Connection	44
5.3.6	Kilby (Brico Connection) to Norfolk Terminal	45
5.3.7	Sunray (Bowers Hill) Station	47
5.3.8	Norfolk Passenger Terminal	47
5.4	Recommended Improvements - The Peninsula/CSXT Corridor	48
5.4.1	AM Junction to Rivanna Junction	48
5.4.2	Fulton Yard – R Cabin to Darbytown	51
5.4.4	Darbytown to Beulah	55
5.4.4	Beulah to West Providence Forge	55
5.4.5	West Providence Forge to East Providence Forge	58
5.4.6	West Providence Forge to Diano	59
5.4.7	Diano to Norge	60
5.4.8	Norge to Toppings	61
5.4.10	Toppings (Williams) to Oriana	64
5.4.11	Oriana to Hampton Roads	65
5.4.12	Hampton Roads to Proposed Newport News Station at MP 11	66
5.4.13	Maintenance Facilities	70
5.4.14	Signal System Upgrade	71
5.5	Recommended Improvements - The James River Alternative	71
5.5.1	Richmond to Oriana	71
5.5.2	Oriana to Hampton Roads and Amtrak Newport News Passenger Station	71
5.5.3	Hampton Roads to James River Alignment	72
5.5.4	Proposed James River Bridge to Provide Direct Rail Access to Norfolk from Richmond and Newport News	73
5.5.5	Alignment Southwest of the James River	73
5.6	Grade Crossing Improvements	74
5.6.1	Ongoing Crossing Safety Initiatives	74
5.6.2	Potential Grade Crossing Improvements	75
5.6.3	Specific Considerations	75
5.6.4	Contemplated Grade Crossing Program	77
5.7	Fencing	80
5.8	Curve Realignment	80
5.8.1	Background	80
5.8.2	Criteria for Realignment	81
5.9	Summary Track Charts	82
5.10	Cost Estimates	82
6.0	TESTING OF THE IMPROVEMENTS	83
6.1	Train Operations Reliability Analyses	83

List of Tables

Table 1:	Rail Services that will Utilize Main Street Station	7
Table 2:	Double Track and Siding Stretches Richmond to Newport News	11
Table 3:	Siding locations and lengths in 1979	14

Table 4: Coal Exports 1989 to 2000	14
Table 5: Characteristics of Corridor Alignments Suffolk to Norfolk	15
Table 6: Inventory of Highway-Rail Grade Crossings to Richmond - Hampton Roads Corridor - Existing	34
Table 7: Inventory of Highway-Rail Grade Crossings to Richmond-Hampton Roads Corridor - Upon Completion of the Contemplated 90 mph Improvements	78
Table 8: Inventory of Highway-Rail Grade Crossings to Richmond-Hampton Roads Corridor - Upon Completion of the Contemplated 110 mph Improvements	79
Table 9: Summary Costs for Alternatives.....	82

List of Figures

Figure 1: Abandoned ACL Route Dunlop to NS Mainline	5
Figure 2: Location of Railroad Facilities – Richmond to Newport News	10
Figure 3: Location of Railroad Facilities – Richmond to Norfolk	13
Figure 4: Railroad Lines and Facilities Norfolk, VA.....	17
Figure 5: Location of Potential Brico Connection to Access Norfolk	18
Figure 6: AM Junction to Fulton Yard.....	23
Figure 7: Routing Options, Centralia-Petersburg-Burgess Area	29
Figure 8: Poe Interlocking: Configuration for Passenger train Access from the Main Line...31
